

# *Save the...* **B-24 Hangar**

The **Liberal Army Air Field** was a landmark in the timeline of the City and area history.

Liberal doubled its population from ~4000 with a farm field west of town in 1942 to the having the **Liberal Army Air Field** being built for B-24 pilot training to ~8000 population at the Air Field closing in 1944.

*I support the effort to **Save the Hangar** and the reuse of the building for community purposes...*
